

# Meadowbank Education and Employment Precinct

Community update, edition 1, July 2020

## Welcome

Welcome to the first Meadowbank Education and Employment Precinct community update. These newsletters will keep you connected and up to date on important milestones, online resources and contact details should you have questions.

The future of the Precinct will be realised through brand new, purpose-built education facilities by 2022 and collaboration with industry. The new schools and TAFE NSW facilities will contribute to a renewed Meadowbank area for the community, with improved access to existing and new active transport options.

That means new facilities for 1000 primary students, 1500 secondary students and 120 intensive English students in modern and flexible learning spaces for the relocated Meadowbank Public School and Marsden High School. TAFE NSW Meadowbank will be transformed into a technology-focussed campus featuring a new Multi-Trades and Digital Technology Hub. This will provide a unique industry innovation and collaboration space, transforming training delivery to be more digitally interactive and industry-focussed.

## Latest news

The Meadowbank community is one step closer to benefiting from the new education and employment precinct with the contracts awarded for the early works phase of the project.

- The Early Contractor Involvement contract for the Schools has been awarded to Roberts Pizzarotti, which includes completion of the design for the school facilities and remediation of the new site for the two schools.
- Hansen Yuncken has been awarded the Early Contractor Involvement contract for the completion of design for the construction work of the TAFE NSW Multi-Trades and Digital Technology Hub.

# What's going on in the Precinct?

## Schools at the Meadowbank Education and Employment Precinct | SSD-9343\*

To cater for the growing community and ensure students have access to the best possible learning facilities, Meadowbank Public School and Marsden High School will be relocated to new facilities within the Precinct.

## The Meadowbank Education and Employment Precinct Masterplan

A Masterplan for Meadowbank is being finalised with ideas to provide an integrated, accessible and liveable Precinct. The Masterplan includes potential projects that will help connect people with places. Students, workers, residents and visitors will benefit from improved pedestrian access, cycleway facilities and employment options.

## Multi-Trades and Digital Technology Hub at Meadowbank TAFE | SSD-10349\*

The transformed TAFE NSW Meadowbank will:

- cater for the needs of students at all stages of their lives
- address the changing nature of the workforce by offering practical training experiences that support employability
- include modern, flexible and future-proofed learning spaces
- provide increased opportunities for industry partnerships and collaboration onsite
- improve student experience and amenity.

## About the Precinct

The [Meadowbank Education and Employment Precinct](#) will reimagine the way we learn and connect.

With education at its heart, the wider Precinct will connect students to training and employment opportunities with local industry and the surrounding community. The Precinct will have improved accessibility with upgraded pedestrian and cycleway routes to help access the stations, schools and TAFE.

### Timeline of achievements and upcoming milestones

- October to November 2019 ● Schools and TAFE NSW State Significant Development (SSD) application public exhibition
- October 2019 ● Preliminary Masterplan released
- May 2020 ● Schools SSD approved
