Works Notification

August 2020

Multi-Trades and Digital Technology Hub at Meadowbank TAFE | Site establishment and early works

Dear neighbour,

The NSW Government is investing \$154 million to transform TAFE NSW Meadowbank into a technology-focussed campus which will include a new Multi-Trades and Digital Technology Hub, to provide a unique industry innovation and collaboration space, transforming training delivery to be more digitally interactive and industry-focussed.

We are writing to inform you that site establishment will start on Monday 10 August to prepare the construction area ahead of works starting. Work is expected to take two weeks and as part of this, the contractor will install site fencing and hoarding; site office and work sheds; and deliver equipment. Once site establishment has been completed, early works to prepare the site for construction will begin. This will include demolition work.

Work will take place between 7:00am and 6:00pm from Monday to Friday and between 8:00am and 1:00pm on Saturdays, weather permitting. No work will be carried out on Sundays or public holidays.

For the site establishment and early works, vehicles will access the site using Mellor Street and Rhodes Street, limiting the vehicle movements on See Street, Bowden Street, Stone Street and Macpherson Street to a minimum.

The health, safety and well-being of students, staff and neighbours is our highest priority. Work will be carried out in accordance with safety guidelines to protect the safety of our workers and the local community at all times.

Keeping you updated

We are committed to working together with TAFE NSW and the local community to deliver the best possible learning facilities for students.

We will continue to keep you informed as the project progresses.

Thank you for your cooperation during this important work.
