Works Notification

11 September 2020

## Multi-Trades and Digital Technology Hub at TAFE NSW Meadowbank | REMEDIATION WORK

Dear neighbour,

During early works for the new Multi-Trades and Digital Technology Hub, suspected asbestos containing material was identified within an existing building, Block Z. Testing conducted by an independent hygienist has confirmed that the material is bonded asbestos, which means it is attached to other material such as cement or vinyl and cannot be crumbled by light pressure.

As a precaution, the area has been cordoned off and will remain out of bounds to students, staff and public until remediation is completed.

The area will be remediated in accordance with the Department of Education's Asbestos Management Plan and SafeWork NSW regulations. All work will be completed by licensed and accredited asbestos contractors, and monitored by occupational hygienists in strict accordance with all applicable legislation, regulations, policies and guidelines.

The material is scheduled to be removed from **Block Z** on **Monday 14 September between 7:00am and 8:30am.**

Once the work is complete, testing will be done to ensure the area has been fully remediated. TAFE will receive a clearance certificate before the area is open to students and staff. We will keep you informed if further material is found which requires removal.

The health, safety, and well-being of the students and the local community is our highest priority. Please be assured that the removal of this material will not pose a risk to the local community.

Thank you for your cooperation during this important work.
