

Note: Grid Datum is the Geocentric Datum of Australia - 1994, which is approximately equivalent to WGS-84.

Kyalite 34km. SEE MAP 26.

Note: A speed limit of 4 knots must be observed when within 100 metres of any dredge, floating plant, vehicular ferry or punt working with chains or wires.

WARNING: RIVER CAN BE SHALLOW IN PLACES IN TIMES OF LOWER WATER LEVELS WITH NUMEROUS UNMARKED SUBMERGED LOGS AND OBJECTS.

Unless exempt, you are required to hold a NSW Recreational Fishing Licence to fish in these waters. Anglers are permitted two attended lines. For bag limits, size limits and seasonal closure information, contact the local Department of Primary Industries Fisheries Office or visit www.dpi.nsw.gov.au/fisheries

Nyah 16 River Km. SEE MAP 29.

Speewa Ferry is open for normal traffic Monday to Thursday 7am to 8:50pm Friday 7am to 11:50pm Saturday 7:30am to 11:50pm and Sunday 8am to 8:50pm. Load Limit - No Heavy Vehicles

Launching of vessels from the ferry approach ramps is prohibited. Ferry cables may need to be lowered with advance notice for larger vessels. Ferry Master can be contacted on (03)5637-6767.

For detailed land based information, refer to NSW LPI 1:50,000 Topographic Map series Cumineyuk 7627-N and Swan Hill 7627-S www.lpi.nsw.gov.au

WARNING: OVERHEAD AND SUBMARINE CABLES AND PIPES CROSS THESE WATERWAYS AT VARIOUS LOCATIONS AND ARE USUALLY INDICATED BY WARNING NOTICES ON THE SHORE. CAUTION SHOULD BE EXERCISED AT ALL TIMES WHILE NAVIGATING IN THE VICINITY OF THESE CROSSINGS.

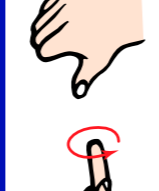

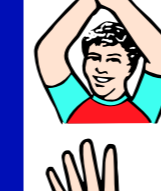

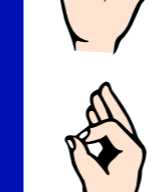

Moulamein 56 km. SEE INSET 1. Map 26

Note: General information such as Caravan Parks, Hotels, Motels, Picnic Grounds and Public Toilets etc. are indicated as a guide only. Not all can be shown in some areas.

Note: Some foreshore lands along the Murray River are privately owned and permission is required to step ashore.

CAUTION: Boating on inland waters demands special care. Information on Boating in these areas can be found in the RMS Boating Handbook available free of charge from our Service Centres or by contacting us via details highlighted on the map cover.

Water Ski Hand Signals

<p>1 Speed Up (Thumbs up)</p> <p>2 Slow Down (Thumbs down)</p> <p>3 Turn (Circling motion above head followed by pointing in the direction of the turn)</p> <p>4 Back To Shore (Pat top of head)</p>	   	<p>5 Cut Motor (Slashing hand across throat)</p> <p>6 OK After Fall (Hands clasped over the head)</p> <p>7 Stop (Hands raised with fingers outstretched)</p> <p>8 All OK (An 'O' made with the thumb and index finger)</p>

FURTHER DETAILED MAPPING AND INFORMATION is available for the Murray River from Spatial Visions "Murray River Access" Guides Details at website www.svmmaps.com.au "River Murray Charts", Renmark to Yarrowonga by Maureen Wright. Details at 1 Young St. Burra SA 5417 or visit www.rivermurraycharts.com.au

NOTE: Kilometre Markers shown on this map, are approximate distances from the Murray mouth in South Australia and are generally at two (2) kilometre intervals.

SEE INSET 2.

**YOU'RE THE SKIPPER
YOU'RE RESPONSIBLE!**

- #### TOWING REQUIREMENTS
- No towing between sunset and sunrise.
 - Maintain a proper lookout at all times.
 - An observer is required on all vessels that are towing.
 - Do not tow more than three persons at the same time, regardless of what the apparatus is capable of carrying.
- #### DISTANCE OFF REQUIREMENTS
- When driving a vessel at a speed of ten knots or more or towing a person you must keep the vessel and the person being towed a minimum distance of
- thirty metres from power driven vessels, any moored vessel, land and structures (including jetties, bridges and navigation markers) or if that is not possible, a safe distance.
 - Sixty metres from persons or non powered vessels (sailing and passive) that are underway or if that is not possible, a safe distance.
 - A safe distance from a vessel towing a person.
- If you cannot maintain the distance off requirements - SLOW DOWN. Speeding on the water is the same as speeding on the road - IT CAN KILL. Penalties apply.

INLAND WATERWAYS

Boating on inland waterways such as rivers, creeks and dams demands special care. Many of these areas present issues not encountered in coastal waters, including submerged trees and other snags. Inland waterways are often murky and constantly changing; If you dont have a depth finder play it safe and reduce speed. Familiarise yourself with the area using maps and wherever you can, talk to local operators. They can often provide valuable knowledge such as how the current runs after rain and water depth following drought. Keep a good lookout for objects ahead or above you, such as overhead powerlines and low level bridges. Strong currents in major rivers and creeks can flow at fast rates and affect the manoeuvrability of vessels. Never underestimate the power of even a moderate current, which can exert a strong force that may trap vessels such as canoes against rocks. Extra caution is required following heavy rain or flooding. Be careful in dams subject to water releases and stay well clear of spillways. These can be extremely dangerous due to turbulence as the water flows through the spillway gates. Boats can easily become caught in the turbulence and trapped. Also remember that during release periods the foreshore can become soft, trapping vehicles during launching and retrieval. Rivers and dams may look peaceful, but low water temperature and remote locations could prove risky should trouble occur. Remember not to overload your vessel.

MAP OF Murray River - Swan Hill Area, including Insets of Murrabit, Barham and Gunbower to Torrumburry.

Line symbols

- Orange dashed line: Overhead Cable Crossing
- Blue dashed line: Structure
- Black dashed line: Central Lane Appearance
- Blue dashed line: Recommended Navigation Path

Restricted Waters

- Red circle with slash: 4 Knots
- Blue circle with slash: 8 Knots
- Blue circle with slash: No Sliding or Anchoring

Navigation Aids

- Green buoy: Standard Buoy
- Red buoy: No Stop Mark
- Red buoy: No Stop Mark
- Blue buoy: No Danger
- Yellow buoy: Pillar Buoy
- Yellow buoy: Special Mark

Restricted Activities and Cautions

- Red circle with slash: Sub Surface Obstruction
- Red circle with slash: Warning Overhead Power Cables
- Yellow triangle: Caution Shallow Water
- Red circle with slash: Caution Submerged Rocks
- Red circle with slash: No Anchoring
- Red circle with slash: Submarine Cable

Boating Facilities

- Red circle with slash: Unattended Hand Launching Area
- Red circle with slash: Launching Ramp
- Red circle with slash: Parking of Launchers
- Blue circle with slash: Public Wharf only or launching
- Red circle with slash: Mooring Boat
- Blue circle with slash: Public Moored Facility
- Red circle with slash: Fuel Available

General Information

- Red circle with slash: First Aid Post
- Red circle with slash: Hospital with 24hr Care
- Red circle with slash: Camping Ground
- Red circle with slash: Head
- Red circle with slash: Public Toilet
- Red circle with slash: Caravan Park
- Red circle with slash: Hotel
- Red circle with slash: Post Office
- Red circle with slash: Public Ground
- Red circle with slash: Sign
- Blue circle with slash: Known Deeper Water at normal Levels
- Blue circle with slash: Unknown Depth or Shallow Water
