Before you begin

Drive electric NSW EV destination charging grants application

Background information

The [Net Zero Plan Stage 1: 2020-2030](#) sets out the state's ambitions to protect our future. The shift to electric vehicles (EV) will play an important part in reducing transport emissions.

In June 2021, the NSW Government launched the [NSW Electric Vehicle Strategy](#) to make NSW the easiest and most affordable place to buy and operate an electric vehicle (EV) in Australia.

The Drive electric NSW EV destination charging grants are a \$20 million investment to rollout widespread, public EV charging infrastructure at visitor destinations across regional NSW.

The grants aim to:

- overcome range anxiety (battery charge) through a widespread EV charging network
- support EV-ready regional destinations across the state
- support the continued growth of our visitor economy
- cater for an increasing number of NSW EV drivers.

Before you begin

Before applying for grants funding, you must complete the following steps:

1. Read the [Drive electric EV destination charging grants guidelines](#) to ensure you understand the eligibility requirements and essential information required to support your application
2. Complete the [pre-application checklist](#)

You can also read the [frequently asked questions](#) for further information.

Contact the EV Destination Charging team for any queries about your application at destination.charging@environment.nsw.gov.au and quote your application number.

Starting your application form

Progressing through the form in page order is suggested to reduce missing information and mathematical calculation errors. Please ensure you save as you go.

To progress forward or backward through the application, click 'next page' or 'previous page' on the top or bottom of the screen.

Use the form navigation box on the left-hand side to navigate and move around pages of the application.

Most importantly, **ensure you save your progress** at the bottom of each page before proceeding.

Download the SmartyGrants [help guide for applicants](#) or the SmartyGrants [FAQs](#) for more help.

Saving your draft application form

To leave a partially completed application, press 'save and close' and log out. You can reopen your draft application later and start where you left off.

EV Destination Charging Application form

Form Preview

Your application can be found under the 'My Submissions' link.

You can also download any application, whether draft or completed, as a PDF. Click on the 'Download PDF' button located at the bottom of the last page of the application form.

Submitting your application

Once reviewed, submit your application by clicking on 'submit' at the top or bottom of the screen or on the navigation panel.

You will not be able to submit your application until all the compulsory questions are completed and there are no validation errors. The system will point these out to you.

Once your application is submitted, no further editing or uploading of support materials is possible.

Once submitted, you will receive a confirmation email, to the email address used to register, with an attached copy of your submitted application.

If you do not receive a confirmation of submission email, and have checked your spam or junk email folder, then presume that your submission has NOT been submitted.

Attachments and support documents

Attachments are required to be uploaded and submitted to support your application. Ensure documents are saved on your computer or on a storage device to assist this process

Allow time for each file to upload before attaching another file. Files can be up to 25MB each; however, it is recommended to keep files to a maximum of 5MB.

Completing an application as a group or team

Several people can work on an application using the same login details as long as only one person is working in the application form at a time. Ensure you save as you go.

Submissions post application - Evidence for payment

Successful applicants will be required to return to the application platform to submit evidence for payment once the approved EV chargers are installed. Please ensure you read and understand the evidence requirements outlined in the EV destination charging grants guidelines.

Privacy statement:

This privacy statement sets out the Office of Energy and Climate Change's practices relating to the privacy of your personal information. The office's privacy practices are regulated by the [Privacy and Personal Information Protection Act 1988 \(NSW\)](#) (PPIP Act) and the office's [Privacy management plan](#).

When you complete your Drive electric NSW EV destination charging grant application form you will be asked to provide information to the office. The information provided relates to you personally and includes any information or opinion made about you. Personal information includes your name, address, phone number, email address or any information from which your identity can be reasonably ascertained.

The office will only collect your personal information for the purpose of administering the Drive electric NSW EV destination charging grants.

The office may only use your personal information in a way that is consistent with this purpose, which could include contacting you in relation to your application or project.

We will hold information you have provided for a period that is appropriate for the purpose for which it was provided. Your information will be archived and disposed of in accordance

with the office's policies, legislative requirements and guidelines based on the [NSW State Records Act 1998](#).

We will not disclose your personal details for any other purpose unless the disclosure is authorised by the PPIP Act and Regulations. Your consent to disclose information for particular purposes may be sought by us or given by yourself for a specific purpose. If appropriate consent is not provided, we may not be able to provide certain products and services to you or your agents.

Under the PPIP Act you have the right to access your personal information held by the office without excessive delay or expense. You also have the right to have your personal information corrected in certain circumstances (e.g. if it is incorrect).

Should you wish to access or correct your personal information contact the office's designated privacy team:

Information Access & Privacy Unit

4 Parramatta Square, Locked Bag 5022, Parramatta NSW 2124

Phone: 02 9860 1440

Email: privacy@dpie.nsw.gov.au

Confidentiality and disclosure information

Any information provided by you that is clearly identified as commercial in confidence will be treated and disclosed by the office in accordance with the EV destination charging grants guidelines.

Limitations: The office and its employees, agents and officers (Office representatives) do not give any representation, warranty or guarantee, whether express or implied, in relation to the information contained in this application or the guidelines. This includes their completeness, accuracy, currency or reliability or the process by which they were prepared.

None of the Office representatives give opinions regarding, legal, accounting, regulatory, taxation or any other matters. Without limiting the foregoing, nothing in the guidelines is or should be regarded as advice in relation to those matters. Nothing contained in the guidelines or application form may be relied upon as a promise, guarantee, representation or warranty.

Applicant details

* indicates a required field

Authorised contact details

Please provide the details of the individual who is able and authorised to enter into a funding agreement with the NSW Government on behalf of the applicant organisation, if the application is successful.

Authorised person contact *

Title First Name Last Name

EV Destination Charging Application form

Form Preview

Please provide the details of the individual who is able and authorised to enter into a funding agreement with the office on behalf of the applicant organisation, if the application is successful.

Authorised person contact position *

Authorised person contact business address *

Address

This is the address of your head office. You will have an opportunity to provide the address of each proposed EV charger site further down in the application form.

Authorised person contact postal address *

Address

Authorised person contact primary phone number

Must be an Australian phone number.

Authorised person contact mobile phone number *

Must be an Australian phone number.

Authorised person contact primary email *

Must be an email address.

Organisation details

Applicant Organisation name *

Organisation Name

Are you representing

- a micro-business (0-4 employees)
- a small business (5-19 employees)
- medium business 20-199 employees)
- a large business (200+ employees)
- a local government or council in NSW
- a state government agency in NSW
- a not-for-profit organisation

EV Destination Charging Application form

Form Preview

Applicant Primary Website

Must be a URL.

Are any sites included in this application located in a local government area (LGA) that has been affected by recent floods?

- Yes
 No

The required 4-month window that chargers must be installed within will be extended to 8-months for sites located in LGA's affected by the recent NSW floods.

Please state the total number of sites you are applying for in this application. *

Must be a number and between 1 and 20.

A site refers to each unique address that an organisation operates from under the same ABN. For example a Bakery with two locations in separate parts of town (or in completely different towns). Applicants can apply for multiple sites (that operate under the same ABN), and can apply for up to 4 EV chargers within each site. This application form allows for up to 20 unique sites to be added. Please contact the grants team at the email address provided on the introduction page if you would like to submit an application for more than 20 sites.

Applicant ABN *

The ABN provided will be used to look up the following information. Click Lookup above to check that you have entered the ABN correctly.

Information from the Australian Business Register	
ABN	
Entity name	
ABN status	
Entity type	
Goods & Services Tax (GST)	
DGR Endorsed	
ATO Charity Type	More information
ACNC Registration	
Tax Concessions	
Main business location	

Must be an ABN.

An applicant can only apply for multiple sites that sit under the one ABN. If each site sits under a separate ABN please submit a separate application form for each.

Applicant Trading name

If you trade under another name using the above ABN, provide that trading name.

Applicant Checklist

EV Destination Charging Application form

Form Preview

Please confirm that you have completed the following steps outlined in the [pre-application checklist](#), including:

- I have read the [EV destination charging grants guidelines](#) - round one I have checked the eligibility requirements to apply for the grants using [the guidelines](#)
- I understand my sites [electrical and charging needs](#)
- I have selected a [suitable parking location](#) at each site for the chargers I am applying for
- I understand how to [purchase and install](#) a grants funded EV charger
- I have selected one or more EV chargers from the [EV destination charger list](#) to include in my application
- I have checked if my application requires the addition of EV charger software, and if it does I have selected software from the [EV charger software list](#)
- I have obtained an [EV charger and EV charger software](#) (if required) quote for each site in my application

I confirm that I have read and understood all of the above *

Yes

If you haven't completed the pre-application checklist please [click here](#) to read and complete the checklist before continuing this application.

Eligible site requirements

* indicates a required field

Site Requirements

Are all proposed sites in your application located in an eligible local government area (LGA) as listed on page 23 of the grants guidelines? *

Yes

No

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

Are all proposed sites in your application classified as an eligible destination type as listed on page 25 of the grants guidelines? *

Yes

No

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

EV Destination Charging Application form

Form Preview

Does each site proposed in this application currently have no more than one existing EV charger installed? *

- Yes
- No

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

Do you have the national meter identifier (NMI) for each site you're applying for in this application? *

- Yes
- No

The NMI is a unique 10 or 11 digit number that identifies your site in the national electricity network and can be found on your electricity bill. You will be asked to provide the NMI for each site you're applying for, further down in the application form.

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

Does each site proposed in this application include publicly accessible parking that your organisation has approval to install an EV charger in? *

- Yes, 2 parking spaces
- Yes, alternative parking (discussed with grants team)
- No

If your site only has access to one off-street parking space, or you are a council with a site that only has on-street parking available, but you meet all other eligibility criteria and would like to apply, please email us directly to discuss your site at destination.charging@environment.nsw.gov.au.

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

Landowner consent and site photos

Are any of your proposed EV charger sites managed through a lease agreement with a landlord, where you require their consent to install an EV charger on site? *

- Yes
- No

If any of your proposed sites are managed through a lease agreement with a landlord where you require their consent to install an EV charger on site, you must provide a copy of their written consent. You can download the landowner consent template from our webpage [here](#). and upload it further down in the application form.

EV Destination Charging Application form

Form Preview

Do you have a copy of written consent from the property owner to install and operate an EV charger(s) at each of these sites? *

- Yes
- No

If any of your proposed sites are managed through a lease agreement with a landlord where you require their consent to install an EV charger on site, you must provide a copy of their written consent. You can download the landowner consent template from our webpage [here](#).

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

Have you taken photos showing the off-street parking and proposed charger location(s) at each site included in this application? *

- Yes
- No

You will be asked to upload a photo of your off-street parking location further down in the application.

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

Software requirements

Do any of the sites included in this application have 100 or more car parking spaces? *

- Yes
- No

If you answered yes to this question it is a requirement that you must apply for a 2-year software subscription for all co-funded EV chargers at that site. Your site location may be audited to verify the number of existing off-street car parking spaces.

Are you intending to purchase and install 3 or more EV chargers at any one site included in this application? *

- Yes
- No

If you answered yes to this question it is a requirement that you must apply for a 2-year software subscription for all grants funded EV chargers at that site.

If you have answered 'No' to the last two questions you are not required to include a co-funded 2-year software subscription. However, you can still apply for funding to switch on the smart capabilities within your EV charger. Would you like to apply for a 2-year co-funded software subscription for your charger(s)? *

- Yes
- No

EV Destination Charging Application form

Form Preview

Smart capabilities include accessing charger usage data, energy management, app based billing, viewing operational status, and booking options. All applicants can apply for funding towards a 2-year EV charger software subscription under the grants. You will be asked further down in the application form to select your EV charger software from the following [list](#). You can read the [grants guidelines](#) and our [how-to-guides](#) to understand more about the benefits of using software with your EV charger.

Based on your previous answers, you will be applying for co-funded EV charger software as part of your application. Have you obtained a quote for a 2-year EV charger software subscription for each relevant site in this application? *

- Yes
- No

It's important that you obtain a separate quote for each site in your application, as each site will be assessed individually and we can't guarantee that all sites will be approved. You will be asked to upload each quote further down in the application form. If you are required under the grants guidelines to include EV charger software at your site then your subscription must include all chargers at that site. If EV charger software is not a requirement at your site (as specified in the grants guidelines) but you would still like to access the smart capabilities within your proposed EV charger(s), you can select the number of chargers that you would like to have software.

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

Quotes

Do you have a separate commercial quote for the purchase and installation of an approved EV destination charger(s) at each site proposed in this application? *

- Yes
- No

As each site within this application will be assessed separately, each must have its own separate quote. You will be asked to upload each quote further down in the application.

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

Declarations

If your application is successful, do you agree to purchase and install your charger(s) within 4 months of receiving approval? *

- Yes
- No

If your site(s) are located in a flood affected LGA, you will have up to 8-months to install your EV charger(s).

EV Destination Charging Application form

Form Preview

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

If your application is successful, do you agree to install your charger(s) per the requirements outlined in the grants guidelines? *

- Yes
- No

View a copy of the grants guidelines [here](#).

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

If your application is successful, do you agree to have the charger(s) installed by a licensed electrical contractor to meet Australian Standards? *

- Yes
- No

It is a requirement that all chargers funded under the grants must be installed by a licensed electrical contractor to Australian Standards.

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

If your application is successful, and your parking facilities include more than 2 parking spaces, do you agree to install the charger(s) in a position that can effectively service 2 parking spaces? *

- Yes
- No

If your site(s) only has access to one parking space, please contact the grants team at destination.charging@environment.nsw.gov.au before completing this application.

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

If your application is successful, do you agree to install NSW Government branding on the charger(s) in the form of a decal sticker or plaque? *

- Yes
- No

Note that any NSW Government branding resources will be provided to each successful applicant with instructions for installation.

EV Destination Charging Application form

Form Preview

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

If your application is successful, do you agree to appropriately operate and maintain your charger following installation? *

- Yes
- No

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

If your application is successful, do you agree to upload the location and details of all installed chargers to at least one publicly available online map website or EV charger app that EV drivers can use to find your site(s)? *

- Yes
- No

You will be asked to provide evidence that you have uploaded the location details to an online website or app, when you return to this platform and apply for payment.

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

If your application is successful, do you agree to work with the NSW Government to document and promote your EV charger experience. This work may include, but is not limited to: participating in post-grant evaluation interviews, the development of case studies on your EV charger experience, the opportunity for official announcements from your site, the inclusion of your site in photos or videos used to promote the program and/or EV charging in general. *

- Yes
- No

You will be contacted about participation in any of these opportunities if and when they arise.

You have chosen a response which means you are ineligible to apply for this grant. Please refer to the guidelines for further information.

Individual site - address details

Please ensure that you complete ALL of the following questions for each proposed site included in your application.

Signage information

Whilst the installation of signage is not a requirement under the grants, it is strongly recommended to both help your customers know where your EV charger is located at your site, and any requirements for using the charger. Signage can include:

- Available hours
- Whether charging is free or whether payment is required
- That this charger is available to charge any EV regardless of vehicle brand
- If your selected EV charger comes with a tethered charging cable or if the EV driver needs to use their own charging cable
- If the parking space is dedicated to EVs only or not
- Who to contact if there is a fault or damage to the charger.

Do you intend on installing signage with your proposed EV charger(s) *

- Yes
 No

Whilst the installation of signage is not a requirement under the grants, it is strongly recommended to both help your customers

Charger costs and installation

For each site, please enter:

- The total cost of purchase for all EV chargers you propose to buy at each site (excluding GST). The grants can fund up to 75% of these costs.
- The total cost of installation for all proposed chargers at each site (excluding GST). The grants can fund up to 75% of these costs (capped at \$1,000 per EV charger).
- The total cost for a 2-year software subscription for each EV charger at each site (where required) (excluding GST). The grants can fund up to 50% of these costs.

• Costs entered below must match the itemised costs included on the quote for each site, excluding items not covered under the grants (e.g. 4G capability, electricity costs, and shipping costs for delivery of chargers to site - (see page 17 of the [grant guidelines](#)).

Grant funding for EV chargers and software is based on the costs shown in the [approved EV charger and software lists](#). If your application includes costs higher than those shown on this list, or includes costs outside the grant's approved funding, then your final co-funding contribution will be adjusted accordingly during the assessment process.

If your grant application is successful, your successful letter of offer will include the approved co-funding contribution for each site.

EV Destination Charging Application form

Form Preview

GST is not payable by the grants, and needs to be paid for by your organisation and claimed through standard tax processes. Please seek further advice from a tax professional if you are unclear about this requirement.

Remember that each site must be operated under the one single ABN provided at the beginning of this application form. If any of these sites sit under a different ABN, you must submit a separate application for that site.

Select **maximise** to enlarge the grid while filling in.

Please provide a name for this site, to differentiate it from any other sites you may be applying for.	How many EV chargers are you applying for at this site?	Please enter the quoted cost to purchase your selected EV charger(s) (excluding GST)	Software subscription cost (\$) (excluding GST)	Installation cost (\$) (excluding GST)	Total cost, based on your entries (excluding GST)
---	--	---	--	---	--

If you wish to amend, move back to page 4. This question is read only.	Must be a number and between 1 and 4. Up to 4 EV chargers are can be applied for per site. Note that applications for 3 or more chargers at one site will then require you to add a 2-year EV charger software subscription per charger. This question is read only.	Enter the total cost (excluding GST). These costs must be the same as what is shown in the quotes you upload in this application form. Exclude shipping costs and other grant exclusion costs. Must be a dollar amount.	Enter the total cost (excluding GST) of a 2-year software subscription for all required chargers at this site. If you are not purchasing software, please enter '0'. Please make sure that the number of software subscriptions matches the number of chargers requiring a subscription. Must be a dollar amount.	Enter the total cost (excluding GST) for installation of all EV charger(s) at this site as it appears on your quote. Must be a dollar amount.	This number/amount is a calculation of the charger, installation and software subscription costs you have entered.

to differentiate it from any other sites you may be applying for.

Choose a label that is easy to understand and will clearly show the difference between this site and another. It could be a building name, a street name, address etc. This question is read only.	Requested grants contribution for EV charger hardware (75% of the cost of chargers at each proposed site). This number/amount is calculated.	Requested grants contribution for EV charger software (50% of the cost of a 2-year subscription for chargers at each proposed site). This number/amount is calculated.	Requested grants contribution for EV charger installation (75% of installation costs, capped at \$1,000 per EV charger per site). Where the calculated installation costs exceed the \$1000 cap, payments will be adjusted down to \$1000 per charger. This number/amount is calculated.

Quotes & declaration

* indicates a required field

Please ensure that you complete ALL of the following questions for each proposed site included in your application.

Ensure the costs you entered on Page 14 match the itemized costs included in the attached quotes for each site, excluding items not covered under the grants (e.g. 4G capability, electricity costs, and shipping costs for delivery of chargers to site - (see page 17 of the [grant guidelines](#))).

Remember that each site must be operated under the one single ABN provided at the beginning of this application form. If any of these sites sit under a different ABN, you must submit a separate application for that site.

Select **maximise** to enlarge the grid while filling in.

Please provide a name for this site, to differentiate it from any other sites you may be applying for.

Please upload a copy of your chosen commercial quote to purchase and install an EV charger(s) at this site.

If you wish to amend, move back to page 4. This question is read only.	If applying for more than one site, each site must include a separate quote as part of this application. The EV chargers shown in this quote must match the EV chargers that are selected in this application form and the costs in this quote must be the same as the costs you entered into the costs table in the previous question. Upload your quote attachment with the following name: EV charger quote - >insert site name<. E.g. "EV charger quote - Smith Street Library".

How did you hear about the EV destination charging grants? *

- NSW Government website
- Industry association (Please specify in other field)
- Other:

Tell us why you are applying for an EV destination charger under the grants? *

- Our organisation wants to contribute to the reduction of greenhouse gas emissions in NSW
- Our organisation will benefit from attracting EV drivers
- Our organisation will benefit from having sustainable and environmental goals that is visible to our customers
- Our organisation will benefit by providing innovative and future focused technologies to our customers
- Our organisation will gain a competitive edge by providing EV chargers
- Other:

Select all that apply.

What were your main barriers to installing EV charger/s without the grant? *

- High upfront costs and/or low return on investment
- A lack of guidance and/ or knowledge about EVs and charging
- Low number of motorists with EVs in NSW
- Other:

Select all that apply

Declaration

I am an authorised representative of the organisation making this application. As the authorised representative for my organisation, I agree that:

- to the best of my knowledge the statements made in this application are true
- all necessary approvals have been obtained prior to submitting this application
- if the NSW Government is satisfied that any statement made in the application for funding is incorrect, incomplete, false or misleading, the NSW Government may take appropriate action. I note that such action may include excluding an application from further consideration, withdrawing an offer of funding, and/ or terminating any funding
- any EV charging offered at the sites included in this application will be covered by appropriate insurances
- all relevant workplace health and safety standards will be met when providing EV charging services at all sites in this application
- the NSW Government will receive de-identified operational EV charging data from any chargers with co-funded EV charger software subscriptions under this grant and that I can choose to opt out of this agreement after the 2-year co-funded software period
- the NSW Government has no responsibility or liability for how the charger is installed, operated or maintained and that all aspects of EV charging at the sites included in this

EV Destination Charging Application form

Form Preview

application will be the responsibility of the applicant organisation including purchase, installation, operation, energy costs, and maintenance

If successful, I will:

- accept the terms of the grant in accordance with the requirements outlined in the EV destination charging grants guidelines
- purchase and install the approved EV chargers within 4 months of receiving approval (8-months if in a flood affected LGA)
- install the approved EV chargers per the requirements set out in the grants guidelines to be eligible to receive payment
- safely and effectively operate, manage and maintain the approved EV chargers as a valuable asset to my business and the NSW EV destination charging network
