

Help us guide the landscape strategy

Planning for the \$80 million Temora Health Service Redevelopment is progressing.

As part of the project, a Landscape Focus Group will be established to discuss opportunities and provide input into the strategy for landscaping the Hospital's grounds and outdoor spaces. This is a way to improve the health and wellbeing of consumers, staff and visitors, by supporting connections between the outdoors and the new Hospital. *(Pictured, above: Tumut Hospital entrance courtyard)*

Are you creative, innovative and interested in the landscape?

Members of the Temora and district community are invited to join the Temora Health Service Landscape Focus Group.

Representatives of the Group will:

- Collaborate as part of an integrated team;
- Share and discuss landscaping ideas with colleagues and community to ensure opportunities respond to the interests and culture of our hospital community, and reflect our local environment; and
- Support the development of the landscaping strategy.

Successful applicants will initially be required to attend three meetings which will run for approximately 1.5 hours each.

Please complete the application form and return by 18 September to the email address below.
