

# Out-of-hours work

## Intersection of O'Connell Street and Factory Street, North Parramatta

### Parramatta Light Rail Stage 1 project

18 March 2024 – IW540

Transport for NSW acknowledges the Dharug people as the Traditional Custodians of the lands on which we work and pay respects to Elders past and present.

Testing and commissioning activities are progressing on Parramatta Light Rail as the project moves towards the commencement of passenger services in mid-2024.

Parramatta Light Rail is one of the NSW Government's latest major transport infrastructure projects being delivered to serve a growing Sydney.

Parramatta Light Rail Stage 1 will connect Westmead to Carlingford via the Parramatta CBD and Camellia. It is expected to open in mid-2024.

With major construction complete, work continues to deliver the project's remaining operational assets. This work includes overhead wiring, fit-out of the Stabling and Maintenance Facility (fleet depot) and the testing and commissioning of light rail vehicles and systems.

Minor finishing work on the major infrastructure is being completed along the alignment by **Parramatta Connect**.

#### Where and what work are we doing?

Work to seal rail joints will be carried out at the intersection of **O'Connell Street and Factory Street, North Parramatta**.

See the map overleaf for the work location.

#### When we'll be working

The work will take place between **Monday 25 March and Friday 29 March 2024**, weather permitting. If work is delayed it will be carried out on the next available night shift.

Work will be carried out on **three night shifts**, between **9pm and 6am**. The noisier work will be carried out early in the shift.

See the work schedule at [parramattalightrail.nsw.gov.au/weekly-works](https://parramattalightrail.nsw.gov.au/weekly-works).

#### Traffic and pedestrian access

Temporary pedestrian and traffic control will be in place as required to ensure safe movements around the work zones. Factory Street will be closed west of O'Connell Street, with alternative vehicle access via Fleet Street and New Street. O'Connell Street will remain open with one lane in each direction.

Access for waste collection and emergency services will be maintained at all times.

Please follow the direction of traffic controllers and signs, proceed carefully and allow extra travel time.

#### What equipment will be used?

Equipment will include, but is not limited to, traffic barriers, concrete grinder, dust extractor, hand tools, power tools, lighting, trucks and light vehicles.

## What will this mean for you?

There will be some noise associated with this work, which can be loud and disruptive.

Some of the ways we manage this is by:

- using non-tonal reversing beepers blankets
- monitoring and reviewing noise levels
- consulting with directly affected residents
- turning off equipment when not in use.

## Location of work area

## Safety around light rail vehicles

Whether you're walking, riding a bike, driving or catching public transport, please remember to **stop, listen and look around**.

Visit the Parramatta Light Rail safety page at [www.parramattalightrail.nsw.gov.au/safety](http://www.parramattalightrail.nsw.gov.au/safety) to learn more about staying safe around light rail vehicles.
